Quiz: ICD

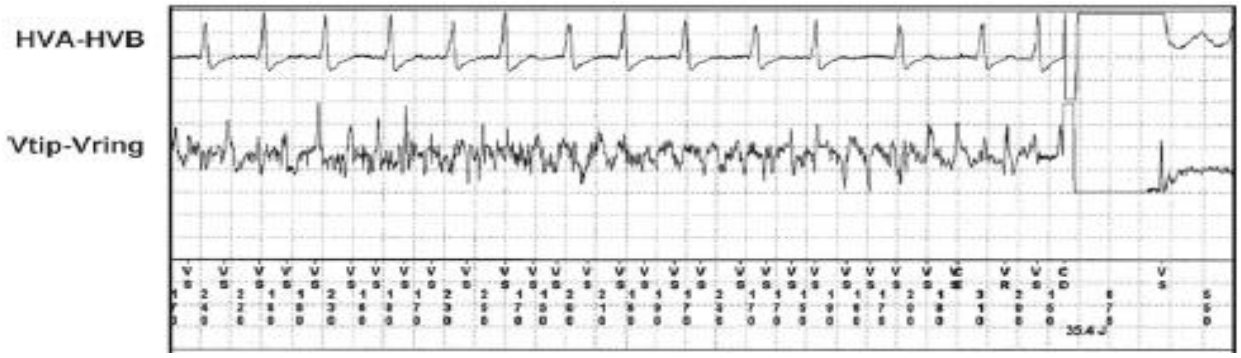

Figure 1. Stored electrogram

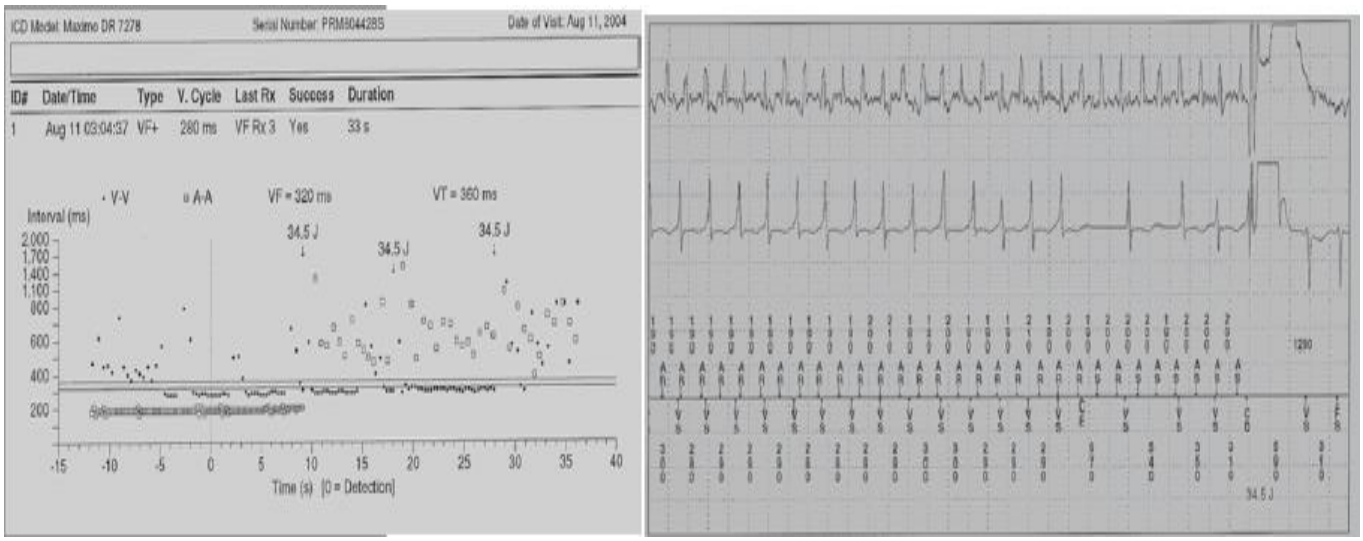

Figure 2. Stored electrograms

Consider these cases. What happened and what reasons led to this?

A. Inappropriate ICD discharges: noise on the RV electrode - Fig.1, Rapid atrial fibrillation - Fig.2
B. Inappropriate ICD discharges: T wave oversensing - Fig.1, Rapid atrial flutter - Fig.2
C. Appropriate ICD discharges: Ventricular fibrillation - Fig.1, Rapid ventricular tachycardia - Fig.2
D. Inappropriate ICD discharges: T wave oversensing - Fig.1, Pacemaker-mediated tachycardia - Fig.2
